Parents' Careers

Dear Parents,

First of all, we would like to welcome you back to the new academic year 2021-22, always hoping for better days to come. Moreover, we would like to thank you for taking part in our orientation sessions by accepting to be our guests last year and sharing your educational and professional path with our Grade 6 till Grade 12 students.

In order to widen our students' horizons in choosing their future major/career, we believe that you play a very important role in guiding them with your expertise.

Kindly, fill out the below information and send back to us so that we can work closely with you in helping our students, your children, learn more about the professional arena.
